### If you could ask your future self one thing, what would it be?

I would love to ask: What kind of person am I? My parents have high expectations of me. I would like to be a dutiful and responsible son in the future. I am working hard towards this goal but I want to know what's in store for me. It would be great if my future self could give me some reassurance, so I have the motivation to continue.

### If you could ask your future self one thing, what would it be?

Am I making a decent living? I grew up in a poor family and we

always worried about money. When I grow up, I am hoping to live a comfortable life with my parents. I hope to join many more extracurricular activities, including painting classes, to pave the way for a brighter future.
